

**TEXA launch the first multi-brand diagnostic tool for
Agricultural vehicles
The 'NAVIGATOR TXT Agri'**

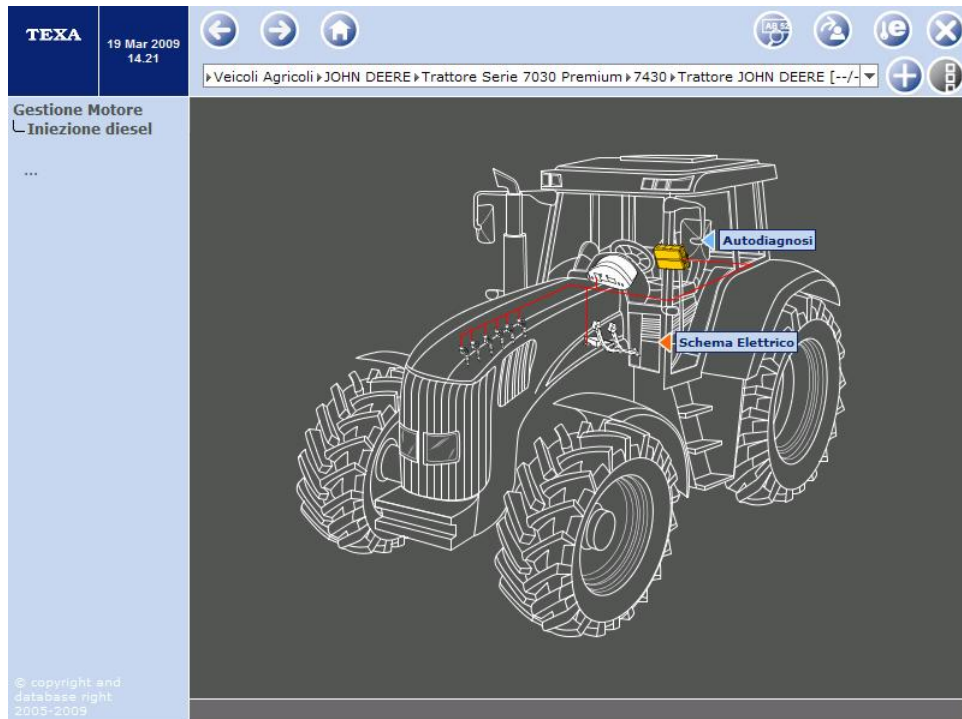

TEXA are proud to introduce the first multi-brand diagnostic tool for agricultural vehicles, the **NAVIGATOR TXT Agri**.

Agricultural technicians can now have a single multi brand tool capable of diagnosing the electronic systems on tractors, combine harvesters etc. The NAVIGATOR TXT Agri connects directly to the vehicles diagnostic socket and communicates with a standard PC via a wireless Bluetooth interface.

The IDC3 Agri Software has been specifically designed to be practical and easy to use. The IDC3 Agri allows the mechanic to carry out tests and repairs on the main electronic systems. The software allows the mechanic to access the diagnostic functions on: -

- Engine management
- Transmission
- Suspended front axle
- Electronic rear hydraulics
- Electronic front hydraulics
- Front PTO
- Rear PTO
- Body/On board computers
- Air conditioning/Climate control

TEXA

A set of brand specific diagnostic cables allows the mechanic to work on leading makes, including John Deere, New Holland, Case, Fendt, Krone, Steyr, Same, Deutz-Fahr, Claas, Lamborghini, Hurlimann, Landini and McCormick.

The NAVIGATOR TXT Agri comes with a standard two year warranty. TEXA also offer technical training and technical support.

TEXA will be showing there Agri tool and Air Conditioning Service Stations at The Royal Show, Stoneleigh Park, 7th – 10th July 2009 on Stand F-27-3. Or for further information contact TEXA UK Ltd on 01282 606787 or visit their website www.texa.co.uk
